Hello...

Allow me to introduce myself, my name is Sakhile Buthelezi and I have been a graphic designer for the past 10 years, working on both digital and print mediums.

My experience and abilities are far-ranging. I have the necessary skills to see a given project from ideation to final execution. I am well-versed in most design softwares.

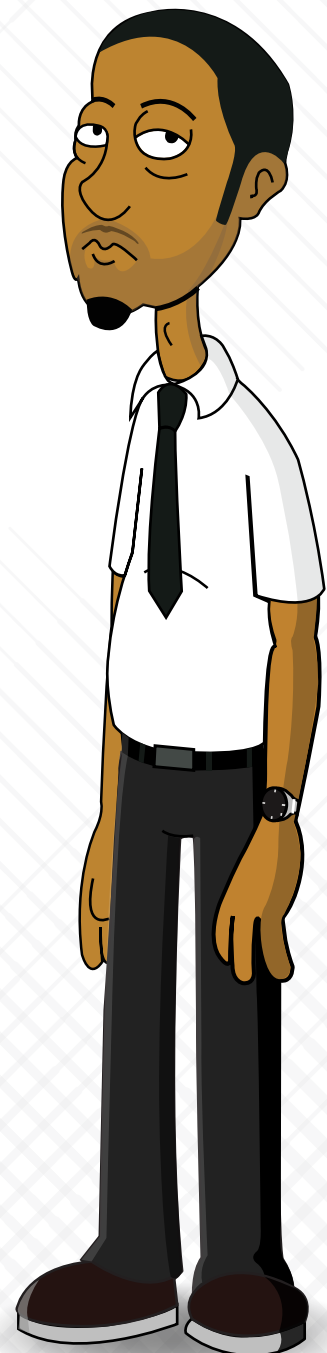

I am able to work under pressure and tight deadlines, ensuring the work is produced at the highest level. I have extensive experience and knowledge, particularly in designing corporate identities, brochures, flyers, posters, invitations, magazines, banners, websites, desktop and mobile applications on both iOS and Android.

I enjoy working in a creative team and can also work on my own. I have the ability to communicate fluently.

In closing I believe I can add significant value to any business or individuals in need of my services.

Feel free to contact me, I might just be the right guy for your next big project.

Kind regards
Sakhile Buthelezi
